On-Premise/Remote Storage,
Your Own Public Cloud, BDRShield
Cloud

Centralized Management

BDRShield Cloud-Hosted (or)
BDRShield 's Self Hosted
Management Console

BDRShield for Endpoint Backup & Recovery

BDRShield for Endpoints provides a robust, reliable, and cost-effective solution for protecting data on desktops, laptops, and other endpoint devices. Simplify and automate the backup process to ensure data protection, minimize downtime, and facilitate easy recovery.

Supported Platforms

Windows: Windows 8.1 & Above

Linux: Debian Linux 10.0 & Above, Ubuntu 18.04 LTS & Above, CentOS 7.5 & Above, CloudLinux 7.0 & Above, Fedora 34.0 & Above, Red Hat Enterprise Linux v8.0 & Above, SUSE Linux Enterprise Server 12 & Above

Mac: MacOS Mojave 10.14 & Above, MacOS BigSur 11 & Above

Key Features

Windows Endpoint Backup

Effortlessly backup and recover the entire system, individual partitions, or specific files and folders on Windows Endpoint.

Mac Endpoint Backup

BDRShield supports file-level backup and recovery for Mac endpoints, allowing you to back up and restore specific files and folders.

Direct-to-Cloud Backups

BDRShield Cloud

Utilize our reliable & secure BDRShield Cloud Storage

Bring Your Own Cloud

Use your existing Private/Public Cloud Storage

Amazon S3 | Azure Blob | Google Cloud | Wasabi
Backblaze | MinIO | Other S3 Compatible Storage

Linux Endpoint Backup

Backup specific files and folders from Linux endpoints and restore them easily with granular recovery options.

Incremental Backups

Backup only the changed blocks for efficient, fast incremental backups, reducing storage space and time.

Automated Backup Scheduling

Set up automated backups at intervals such as every 15 minutes, hourly, daily, or weekly to ensure continuous data protection.

Centralized Management Console

Manage, monitor, and control all endpoint backups from a single, user-friendly console.

Flexible Storage Options

Store backup data on local disks, NAS, SAN, BDRShield Cloud, Amazon S3, Azure Blob, Google Cloud, Wasabi, MinIO, and other S3-compatible storage.

Ransomware Protection & Recovery

Protect backups from ransomware threats with immutable backups and quick recovery options to mitigate the impact of attacks.

Disaster Recovery

Comprehensive disaster recovery options to ensure business continuity in case of catastrophic failures.

Advanced Retention Policies

Configure data retention policies to meet regulatory compliance and organizational requirements, ensuring that data is retained for the necessary period.

Flexible Recovery Options

Restore the backed up Endpoints the way you need it - entire machine, specific disk/volume, individual files/folders or application items.

Highly Rated

Backup Solution by Customers,
MSPs, Channel Partners

“

We use BDRSuite for backup purposes and provide backup as a service to our customers. My company has been able to create a good income with a relatively small investment in BDRSuite. The flexible hybrid solution that BDRSuite provides along with reasonable pricing made us decide for this product instead of its competitors.
